

RUN-EU PLUS: Professional Research Programmes for Business & Society

Regional University Network European University (RUN-EU)

The RUN-EU PLUS project develops an integrated long-term strategy for research and innovation within the RUN European University. The main goal of this project is to reinforce academia-business collaboration through the development of a framework and programmes at master's and PhD level across the network. RUN-EU PLUS delivers on the core objectives of the European Research Area by fostering the free movement of researchers, scientific knowledge and innovation, and encouraging a more competitive European industry.
