

Sustainable Entrepreneurship and Innovation Ecosystems

"communities of interconnected and interdependent individuals, organizations, institutions, and processes oriented towards enabling value creation through supporting the development of new innovations and entrepreneurial start-ups with the aim of cultivating sustainable development"

ENHANCE universities have actively created supporting ecosystems for sustainable entrepreneurship and innovation through various initiatives in cooperation with non-academic sector

 **Educational programs and courses**

 **Research centers, programs, labs**

 **Disclosures and technology transfer**

 **Accelerators, incubators, and funders**

 **Student-led initiatives**
