

# Challenges of the Research Assessment Reform in the European University Alliances

- Laboratory to experiment common approaches
- Framework for national regulation evolution
- Definition of common criteria based on Open Science for research projects
- Place to develop new assessment usage

## Added Value and Expected Impact of the University Alliances on the RAR

- Adopting a collective approach to eliminate roadblocks and to speed up the transition to a more inclusive and diverse approach in evaluation
- Using cases for assessing common research projects to initiate a systemic evolution
- Developing Assessment Standard Guidelines for research assessment at EUAs scale
- Proposing a comparative law approach in order to promote a cultural change

### RIS4CIVIS Project – CIVIS Alliance

**Mihnea Dobre** – University of Bucharest

**Fabien Borget** – Aix-Marseille Université

**Rafaella Lenoir Improta** – Universidad Autónoma de Madrid

**Christos Papatheodorou** - National and Kapodistrian University of Athens
