

How the European Universities Initiative Contributes to the Advancement of Open Science

The (Re:)ERUA Work Package on Open Science

Sonja Kralj, Maximilian Heber, Paulina Helmecke, Matthias Landwehr, Emilia Mikautsch, University of Konstanz

What has the Re:ERUA work package on Open Science been working on and achieved?

Open Science Courses

- Asynchronous basic and advanced online course
- Eight / seven modules

Basic Course

Advanced Course

SWOT Analysis

- Overview of the status quo of Open Science in the alliance

Ambassador Program (in progress)

- Establishing an Open Science ambassador at each ERUA university
- Aims: advancing institutional Open Science development, promoting Open Science, networking with other ambassadors

What is (Re:)ERUA?

- ERUA: European Reform Universities Alliance
- Re:ERUA develops ERUA's research trajectory
- Alliance within the European Universities Initiative
- All universities work together in six work packages

Open Science Meet-Ups

- Monthly virtual informal meetings
- Talk and discussion about a specific topic each session

Repository Evaluation

- Evaluating institutional research data repositories
- Assessing options to connect the repositories

Research Data Management Study (in progress)

- Qualitative study about research data management needs
- Interviews with 39 researchers and support staff
